

for Remote ATM Surveillance in the Banking Sector

ATMs face security challenges such as vandalism, robberies, and fraud. The challenge for banks is to improve security while also enhancing user experience. All these have to be achieved while keeping costs low.

The Issue

The PeopleLink Solution

What are Your Needs:

The need to provide for a streamlined security apparatus.

- PeopleLink application offers **Multiple Camera Connectivity**, keeping all the camera feeds active.

The ability to facilitate remote monitoring of ATMs?

The need to have instant feedback and response in place.

- PeopleLink **Tracking Cameras** which automatically tracks movements.

Cut down on ATM fraud?

Reduce operational costs when it comes to surveillance?
