# OmniPresence

*The Next-to-Life Virtual Communication Platform*

OmniPresence is a telepresence platform for lifelike, face-to-face interactions in Ultra High Definition video that help make business communication more realistic and effective. Have full, centralized control of online interactions including the sharing of rich media for optimal telepresence sessions.

OmniPresence

## Effective Corporate Communication Medium

Business travels are an added expenditure for organizations. Phone calls, mails, fax and other legacy communicative systems often fail to act as an alternative to face-to-face interactivity, thus making business travels essential. PeopleLink's Omnipresence replicates the lifelike, face-to-face interactions in Ultra High Definition video; making business communication more realistic, effective and free from the burden of traveling expenditure.

OmniPresence

## Intuitive Control for Managing the Telepresence Sessions

A portable touch-enabled controller is part of this offering, which supports a single-touch control function. PeopleLink Insta Controller which is an IoT device, offers an ultimate connected experience in managing large conferences and easy control of the entire system including single-touch power, call initiation, conference control, Boardroom AV control and easy configurable control for the lighting of the TP room.

OmniPresence

## High-resolution, Rich Media Collaboration

High resolution content quality – Now collaborate with high resolution, rich media content with fluid motion. Interact with content in real time with annotation and whiteboarding from your own device. Experience the power of wirelessly sharing your content during the conference.

OmniPresence

## Centralized Command Center Control

PeopleLink Omnipresence can act as a centralized control tool for the command centres. The single screen with single or multiple cameras can connect to multiple screens, sending multiple audio/video feeds simultaneously to all remote participants. Omnipresence can act as full-proof collaboration solution for high-security verticals including defence.

OmniPresence

## Custom Solutions for Various Telepresence Options

PeopleLink OmniPresence is available in different custom configurations like, single screen or multiple screens (up to 16), single camera or multiple cameras (up to 16). The telepresence suits can be used with your existing furniture and infrastructure or else telepresence-related services including conference room aesthetics and decoration, lighting, sound system, provision and arrangement of conference table and chairs etc. is also possible.

### Product Features

- ✓ Ultra HD (4K) Video Collaboration
- ✓ Easy integration with any remote system
- ✓ Easy to deploy at reasonable installation and operational cost
- ✓ High-end A/V quality even in low bandwidth
- ✓ Easy remote data sharing
- ✓ Supports single & multiple screens (up to 16)

Supports multiple camera inputs (up to 16)

Transmits multiple video feeds simultaneously to remote participants

## Benefits

Next-to-reality video collaboration making business communication effective

Improved business relation through real-life face-to-face interaction

Cuts down the travel expenditure

Initiates faster decision making

Improves business productivity

Offers better work-life balance for the organization's employees

Customized solutions depending upon available space, number of participants and budget.

# What Makes OmniPresence so **effective**

## Ensure Data Security

All content on delivery is protected with AES 128-bit encryption, effectively minimizing security breaches and ensuring the safety of every user. OmniPresence guarantees only authorized users have access while leveraging your organization's LDAP or Active Directory.

## Get Started Immediately

OmniPresence has a user-friendly interface, enabling users to quickly understand how to use the software. If lost, the built-in quick search option helps you on your way.

## Automatic Backup Server

In case the server fails, the backup server - Hot Standby - automatically takes off. This makes OmniPresence extremely reliable and running 99.99% of the time.

## Grows As Your Organization Expands

OmniPresence is scalable and easily adapts to the increasing size of your organization - from a handful of users to thousands, it provides seamless experiences for everyone.

## Quick Connect to Support Team

The team helps setup OmniPresence for your organization, offers training, and provides support should there be an issue.

## Access from Any Device

OmniPresence is a robust software that is compatible with smartphones, tablets and laptops. You can pick up sessions where you left off from a different device. All software updates are automatic, and are compatible with legacy systems.

## Ensure User Privacy

OmniPresence's privacy settings are flexible from an organizational level to an individual user level.
