

Telepresence Camera

The Telepresence Camera is a state-of-the-art video live camera designed for professional broadcasting and video conferencing, delivering stunning clarity with its Ultra HD 4K image quality that captures every detail with precision. Its 20x optical zoom allows for versatile shooting, enabling both closeups and wide-angle perspectives effortlessly. Equipped with advanced auto focus technology, it ensures subjects remain sharp and clear at any distance, while the infrared remote control provides convenience for adjusting zoom and brightness settings from afar, making it ideal for dynamic environments. With flexible installation options, this camera adapts seamlessly to various settings, making it the ultimate tool for capturing high-quality video in conference rooms, classrooms, or studios.

Key Features

- **Ultra HD 4K Image Quality:**
 Captures high-resolution video with exceptional detail, ideal for clarity and professional broadcasting.
- **20x Optical Zoom:** Offers powerful zoom capabilities for close-ups and wide-angle views, allowing flexibility in framing shots.
- **Auto Focus Technology:**
 Automatically adjusts focus for clear images, ensuring that every detail is captured in real time.
- **Infrared Remote Control:**
 Provides convenient control over zoom, brightness, and other settings from a distance, enhancing usability in various environments.
- **Flexible Supports Installation:**
 various installation configurations, making it adaptable to different settings and user needs.
